This passage is about^a musical instrument, a type of old piano.

(speaking of)
~~talking about~~ Musical instruments like piano, guitar and violin,

~~they~~ are very popular among people. These instruments are used to

create a variety of nice sounds. Music is a way of expressing

one's emotions such as happiness, sadness, and quietness ~~etc.~~ Just

^{people} as ~~learning~~ a foreign language, ~~it is a something that~~ ^(a thing) people must

^{learn} spend time to ~~study~~; however, it opens a door to a new world as

~~it's worth time~~ because music brings people a new channel to communicate with others.

~~Dispite~~ ^{in fact} the musical instrument is a tool to create sounds, with

the development of new technologies, computers ^{are} is used in this

area. People ^{use} can ~~(compile~~ programs to) manipulate sound effects, and ^{by using} ~~programs~~

^{the} ~~this~~ makes life of players easier. However, to experience the power

of music, one should choose an instrument ^{which} best fits ^{one's} ~~your~~ hands,

because this is obviously a learning-by-doing process through hand

movements. The more you play, the better you get the feeling of

~~the~~ rhythms. Like people learn a foreign language at earlier age, it is

good to start practicing an instrument at teenage, ^{as} however, it is

never too old to learn.
